EDUCATION

IMS Engineering College

B.Tech in Computer Science and Design

Ghaziabad, Uttar Pradesh

May 2026

EXPERIENCE

Full Stack Developer Intern

April 2026 – May 2026

Systemsway (US, Remote)

- Built the company's official website (<https://systemsway.com/>) and contributed features to the Dezite no-code platform (<https://dezite.com/>).
- Developed and shipped 10+ production-ready website templates for Dezite, enabling faster site creation and deployment for end users.

Full Stack Developer Intern

October 2025 – December 2025

RD Group of Industries

- Designed and developed a complete hotel booking system for a live hotel website (<https://www.princdiamonddiamondhotel.com/rooms>), including room availability, pricing, booking workflows, and admin-side management.
- Worked on multiple internal products and projects, contributing to backend systems and feature development.
- Engineered backend functionality for a vulnerability scanning platform (<https://www.voltsec.io/>) targeting API, web, cloud, and network vulnerabilities, with Firebase auth and user-based access control.

Freelance Full Stack Developer

December 2024 – October 2025

Self-Employed

- Delivered end-to-end web solutions for clients using the MERN stack and Next.js, focusing on scalability and performance.
- Developed and deployed production-grade websites including an Interior Design platform (<https://www.kdesign-interiors.com/>) and an IT Consultancy website (<https://www.devixlab.com/>).

PROJECTS

Tattletale – Social Media Investigation Tool | *React.js, Tailwind CSS, MongoDB, Express.js, Playwright*

- Built an automated investigation tool for NIA to capture and analyze public data from Instagram, Telegram, WhatsApp, and other platforms.
- Implemented Playwright-based headless automation for dynamic content capture and evidence generation, with modular REST APIs and a dark-themed UI.

Open Journal – Academic Journal Platform | *React.js, Tailwind CSS, MongoDB, Nodejs*

- A scalable full-stack journal submission and peer-review management platform with tailored roles for editors, reviewers, and researchers.
- Enabled authors to submit papers, track revisions, and make payments with transparent version control; built reusable, responsive UI components.

ACHIEVEMENTS

Smart India Hackathon 2024 Winner – Won SIH 2024 (Problem Statement 1743 by NIA) by developing a tool to analyze and document social media data, showcasing innovation and technical expertise.

Patent Publication (App No. 202211074490) – Published in first year of college.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Java

Frontend: React.js, Next.js, Tailwind CSS, Vite

Backend: Node.js, Express.js, JWT

Database: MongoDB, Firebase, PostgreSQL, Redis

Cloud & DevOps: AWS (EC2, S3), Docker, CI/CD basics

Tools & Testing: Git, GitHub, Postman, VS Code
